Carey Park Monday

Fifty First-Choice Lots in This Center of Development Activity Will Go On the Market at 9 O'Clock October 20th at Only One Dollar Cash and One Dollar a Week

CAREY PARK will be opened to home-builders and investors next Monday morning at 9

The first fifty lots, any choice from the plat, will be sold at the phenomenally low price of only \$200 each, and on the never-feel-it terms of only one dollar cash and one dollar a week, without interest or taxes until paid for. Think of it! And Carey Park is on the street car line with a five-cent fare, with another street car extension to approach it on the south side.

The first fifty lots in Carey Park will sell faster than any lots ever sold before in Atlanta. Mark the prediction. Prices will then be advanced 12½ per cent on all unsold lots. Fifty more lots will thus be sold at the advance or \$225 each, and then another fifty at \$250 each, and so on until Carey Park lots are selling for double the amount the ground floor investors are required to pay next Monday.

Think the matter over! Look up the map of Atlanta and study suburban growth and values for a moment. In the meantime don't get away from the salient fact that—

One dollar cash and one dollar a week buys a lot in Carey Park-makes you a freeholder; gives you as your own a piece of God-given ground, the basis of all wealth, the foundation of the only independence, the stepping stone to success and happiness. One dollar cash buys for you a real estate investment that puts your surplus savings to work as diligently and as profit-ably as you work yourself—it puts into your possession the world's greatest incentive to save, to accumulate—a lot on the fringe of a growing city; a lot to build upon and occupy, or to sell again at a profit, or to use as a nucleus upon which to pyramid other investments—a lot that will grow in value each day, that will double up the investment in profits, that should form the bed-rock of future fortune.

Carey Park lots are especially large. They will average 140 feet in depth. None are less than fifty-foot fronts. The streets and avenues are wide—the alleys are wide. Many handsome cottage homes are now being erected. Stores are being built—there is a general spirit of activity and development there. Streets are being graded. The County will chert the Peyton road through the center of the park. A beautiful spring and park site is being developed. And the whole is without a parallel around Atlanta as to picturesqueness. "A natural park," said a visitor yesterday. A natural park indeed on which the hand of progress has already been laid.

Don't forget, too-

The Hollywood and Gary roads are both to be graded by the county; the Mason and Turner road is to be widened for an extension of the street car line through Center Hill and to the south border of Carey Park—and Carey Park is just west of the magnificent Grove property, "Fortified Hills," on which hundreds of thousands of dollars will yet be spent for development.

On the whole, what do you think of it? Listen-

We make a study of development conditions; we make a study of realty values. It is safe to follow where we lead. Thousands of real estate investors throughout the South testify to the truthfulness and the sincerity of that statement. Now, remember—

Carey Park Monday! Don't overlook the date—don't neglect the opportunity. In the meantime call at the Germania Savings Bank and let us show you the plat—let us show you the property. We want to show you. A property that is not worth showing is not worth selling. are anxious for you to see Carey Park-

And when you see Carey Park, and study the conditions that make Carey Park today the greatest investment opportunity around Atlanta, we shall ask simply that you act upon your judgment.

JAMES A. HOLLOMON

President American Securities Co. at Germania Savings Bank.

P. S.—Carey Park property is owned in fee-simple by Mr. John Carey and his son, Hon.

Dan Carey, park commissioner, who will execute all contracts for deeds and all collections will

be made by pass book through the Germania S. vings Bank.

You Use Electric and Gas Light Nearly Three Times as Long in December as You Do in June

This chart divides the 24 hours of a day into three periods -- the period of sleep, the period of using Artificial Light and the period of daylight.

In June, the average use of Artificial Light in Residences is 2 55-100 hours per day.

In December, the average use of Artificial Light in Residences is 6 85-100 hours per day.

Therefore, the average use of Electric and Gas Light in the Home is nearly three times as great in December as in June.

Have You Been "SUITED"

-Foot Comfort-

Comfort must obtain, or style has small charms in Footwear. The combination, comfort and style, has been the factor that has placed the English Last "first" in the esteem of the shoe buyer, particularly the young men. We show here one of several extremely fashionable models of this description, which we have in all the smart shades in tan, as well as other leathers.

If the answer is in the affirmative, it's highly probable you've been "Suited" here.

There's really no chance not to be when once you cross the threshold of the "big store" bent on buying.

Here is where style holds daily receptions bidding all good Dressers welcome to the Temple of Fashion.

There's a Suit here to suit you---and a price as well.

Why You Can Buy These Fine \$40, \$45 and \$50 Suits at \$35 Suit Sale Begins Today, 8 A. M.

WHY? Because this is one of the special occasions where you reap the buying advantage of this

store.

THE REASON: We are one of a chain of twelve Ready-to-Wear Stores with stocks purchased through one New York office.

The larger the purchase, the greater buying advantage—that's a rule in every business. Very few retail stores are so fortunate. The output of these twelve stores is almost unlimited.

We buy materials in the same volume, also with a decided advantage in a choice of the best things manufactured.

We buy materials in the same volume, also with a decided advantage in a cnorce or me uses sames manufactured. These fine Suits at \$35 have not been reduced—the explanation of the price is in the plan of purchase. We bought the materials. We had them made.

We chose twelve models—the best models we've been shown this season—Suits that have been sold, at \$30 and as high as \$50. We had a plan to sell such Suits as these for \$35, and there was only one way to do the season of t

To The Merchants of Atlanta

The people of Atlanta, of Georgia, of the South are unanimous in believing that The Constitution stands unselfishly for their best interests.

Unanimously they believe statements it prints.

No other paper the size of The Constitution has such undivided loyalty among its constituents. No other city the size of Atlanta has an institution of such popular strength as The Atlanta Constitution.

Its responsiveness as an advertising medium is a tremendous asset to you.

Here is proof of its strength.

The J. M. High Company Wednesday, October 1, inserted an ad exclusively in The Constitution expecting to sell one hundred hats at \$4.95. Before eleven o'clock in the morning of the same day the ad appeared one hundred and fifty were sold---and telegraph orders, mail orders, etc., made fifty more. One telegram from a city 100 miles from Atlanta ordered two of the hats shipped by express.

The Rhodes-Wood Furniture Company Friday, October 10, advertised exclusively in The Constitution Chifforobes and complete bed outfits. That day their sales surpassed their expectations and customers responding bought much merchandise additional that was not mentioned in the advertisement.

Sunday, October 11, Mr. R. T. Moon inserted a page advertisement in The Constitution announcing his new store at 167 Peachtree street. What it did for Mr. Moon, the following letter shows:

The Constitution, Atlanta,

Dear Sirs:

Dear Sirs:
It may be gratifying to you to know that the results I received from the full page advertisement in last Sunday's Constitution exceeded my greatest expectations.

My North Sids store, 107 Feachtree street, recently opened, did its largest day's business following the insertion of our opening advertisement in The Constitution.

The South Side store, at 29 West Mitchell street, had more business Monday and Tuesday of this week than we could possibly without I was surprised at the people that wisited these stores who heretofore never had been in either of our stores. The response was most pleasing, as there were no prices quoted in the entire page.

October 12, advertising our North Side store.

Thanking you for the assistance I have received from your Advertisers' service, I am, Store Yery Truly.

J. G. Sherrer, Grocer, 36 Gordon street, never had advertised. We prepared and inserted for him a series of five small advertisements, each occupying nine inches of space. Mr. Sherrer immediately felt an increase in the sales of every item advertised, added many new cash customers and opened many new accounts. After the third advertisement appeared Mr. Sherrer sent in one day two wagon loads of groceries to the North Side, ordered by telephone.
